DETAILED ACTION

REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

With regard to claim 1, the prior art does not teach or render obvious the claimed Probe apparatus for an electronic instrument in combination as claimed including:

• A first housing containing a push-on connector having a first RF connector at a nonautomatic-mating end, a second housing containing a second RF connector which carries a probed signal, a cable having at one end a third RF connector and a fourth RF connector at the other, and the first and third RF connectors being mated together within the first housing and the second and fourth RF connectors being mated together within the second housing.

With regard to claim 8, the prior art does not teach or render obvious the claimed Probe apparatus for an electronic instrument in combination as claimed including:

• A first housing containing a push-on connector having a first RF connector at a nonautomatic-mating end, a second housing containing a threaded bore for receiving an RF connector which carries a probed signal, a cable having at one end a second RF connector and a third RF connector at the other, and the first and second RF connectors being mated together within the first housing and the third RF connector being mated to the threaded bore within the second housing.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue

Art Unit: 2858

fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

CONTACT INFORMATION

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Hoai-An D. Nguyen whose telephone number is 571-272-2170. The examiner can normally be reached on M-F (8:00 - 5:30) First Friday Off.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Eddie Lefkowitz can be reached on 571-272-2180. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
